Dear people,

On Wednesday 2d of April this year we came with our hired motorhome (Ford Trader) because we had trouble with the coolant-water.

The overflow bottle was gone (fallen off) and now all the overflow-water was wasting on the road. So we had shortage of coolant and it got boiling. After we filled it up with 2 liters of water, we drove back and came to your workshop.

You helped us with fixing a plastic milkbottle to replace the lost one.

You didnt charge us anything and we were very glad you were willing to help us without delay.

We still want to express our gratetude for your instant help and advice.

A warm greeting from

Inge and Bernardien Havenaar.

Inge
